

## BUSINESS SUCCESS STORIES ARE WRITTEN WITH **THE HELP OF A CPA**

**Could this story be yours?** After a successful medical career, I decided to follow my dream of helping cure disease. I assembled a team and we started a biopharma research company. We know all about genetic markers, but nothing about health insurance. Our CPA helped find the right policy to fit our budget. We're looking out for the world. Our CPA is looking out for us.

To make your business **#CPAPOWERED**, call today and let's get started.

### CPA TIP NO. *28* Understand Health Insurance

When you get ready to hire new staff, consider the health care implications first. It may change your strategy for how and when you add resources to your team. A CPA can help ensure you get the right coverage for your employees and your business, keeping you compliant and avoiding costly penalties.
