

Audit Committee Effectiveness Center

in cooperation with CNA

The primary mission of the AICPA's Audit Committee Effectiveness Center is to improve audit committee performance to the benefit of an organization's many stakeholders. The array of current and future resources available through this online center will support and promote effective audit committees and position the CPA – who has the competencies, ethics and expertise required of financial experts – as the ideal audit committee member. With the goal of improving corporate governance, the center will provide guidance to corporate management and boards of directors regarding best practices in appointing and managing the audit committee function.
