**ARIZONA**

“… the Arizona Board of Accountancy has concluded that merely accepting an engagement to provide accounting services to a medical marijuana dispensary does not, on its face, constitute an act discreditable to the profession and it will not pursue independent disciplinary action against an Arizona CPA registrant based solely on such acceptance. The Arizona Board of Accountancy recommends that Arizona registrants considering providing services to the medical marijuana industry read the materials referenced herein,* professional standards applicable to the professional services to be provided and guidance state and federal regulatory bodies offer, including, but not limited to, the Internal Revenue Service, the U.S. Department of Justice and the U.S. Securities Exchange Commission and any other authoritative materials available that frame the issues contemplated herein.”

---

**COLORADO**

“It is the Board’s position that offering to perform or performing professional services for clients in the marijuana industry who are in compliance with Colorado Medical Marijuana Code and the Colorado Retail Marijuana Code is not in itself specifically prohibited by the Accountancy Act codified in Section 2 of Title 12 of the Colorado Revised Statues or the State Board of Accountancy Rules.

“Certificate holders who choose to provide professional services to the marijuana industry will be held to the professional standards, laws, and rules applicable to all certificate holders for services provided.

“The Board’s Position Statement should not be construed: (a) as an endorsement for certificate holders to provide professional services to the marijuana industry; (b) as a statement about the feasibility of meeting applicable professional standards in providing services to the marijuana industry; or (c) as a statement about marijuana enforcement in any other jurisdiction or by any other local, state, or federal authority.”

**CONNECTICUT**

“It is exclusively the jurisdiction of state and federal courts to determine if and when drug laws are violated; in the absence of such a determination by the courts, the Connecticut Board of Accountancy will not pursue independent disciplinary action against Connecticut CPAs or CPA firms who are operating within the bounds of state law.

“CPAs must be aware that recreational marijuana remains an illegal substance in all but four states, and it is highly recommended that any Connecticut based CPAs or CPA firms seeking to provide services to recreational marijuana vendors or producers outside of Connecticut consult with independent legal counsel about potential legal issues that may arise as a result of providing services to recreational marijuana vendors and producers. Since recreational marijuana is currently illegal within Connecticut, it remains the prerogative of Connecticut law enforcement to take legal action against Connecticut based CPAs or CPA firms providing services to recreational marijuana vendors outside of Connecticut.

“Marijuana regulation is a rapidly changing area of the law and it is a CPA’s responsibility to verify that their respective state laws currently allow the sale of medical or recreational marijuana. Furthermore, CPAs and CPA firms must be aware that federal enforcement policy is subject to change with a new presidential administration.”

**FLORIDA**

“… the provision of public accounting services, as defined in Section 473.302(8), FS, to marijuana-related businesses in states where marijuana-related businesses have been legalized, in the absence of a criminal conviction of the certified public accountant for the provision of those services, in and of itself does not constitute a lack of good moral character.”

*From: Florida Board of Accountancy response to Petition for Declaratory Statement by Howard, Howard and Hodges, Certified Public Accountancy and Consultants*
MARYLAND

“Upon advice of counsel, in light of the current state of Maryland and Federal law, the Board will take no regulatory action against a CPA or firm solely on the basis that the CPA or firm provides services to a business involved in the sale or distribution of marijuana, provided that the business is operating legally under applicable state law.”

From: Upon inquiry

NEVADA

“The decision to provide professional services to the marijuana industry is a business decision for individual licensees and registered firms. The Board cautions that those licensees or firms that choose to provide services of any kind to this industry should diligently address the potential risks and uncertainties involved, including but not limited to the continued uncertainty surrounding enforcement of applicable federal drug laws and related provisions of the Internal Revenue Code.

“After careful consideration, the Board has determined that Nevada licensees and firms that elect to provide services to the marijuana industry legalized in any state in which the licensee practices will not face action by the Board based solely on the fact that the licensee or firm is providing such services. However, licensees are reminded that the federal government views such activity as a federal criminal offense. The Board’s position does not negate the possibility that disciplinary action may be taken by the Board should a licensee be found guilty of a federal criminal act.

“All licensees should be reminded that any and all professional services provided are subject to the same professional standards, laws and rules applicable to all other professional services provided by the licensee or firm.”

From: Nevada State Board of Accountancy Guidance for Licensees Providing Services to the Marijuana Industry
WASHINGTON

“Pending changes in federal marijuana enforcement policy, the Executive Director believes that offering or performing professional services to those commercial business enterprises licensed by the Washington State Liquor Control Board (WSLCB) to produce marijuana, process marijuana and sell marijuana products for recreational use as defined in Initiative No. I-502 is not specifically prohibited by the Public Accountancy Act or Board Rules.

“However, the Executive Director encourages individual CPAs and CPA firms providing (or desiring to provide) professional services to licensed commercial enterprises in this new and developing industry to diligently evaluate and address the potential risks and uncertainties associated with providing such services. The uncertainties of federal enforcement policy with respect to federal law further complicate a service provider’s initial and continuing client acceptance and engagement risk analyses.”

From: Position Statement of the Executive Director of the Washington State Board of Accountancy

OREGON

“The decision to provide professional services to the marijuana industry is a business decision for individual licensees and registered firms. The Board cautions that those licensees or firms that choose to provide services of any kind to this industry should diligently address the potential risks and uncertainties involved, including but not limited to the continued uncertainty surrounding enforcement of applicable federal drug laws and related provisions of the Internal Revenue Code.

“After careful consideration, the Board has determined that Oregon licensees and firms that elect to provide services to the marijuana industry legalized in any state in which the licensee practices, will not face action by the Board for violation of the State of Oregon Board of Accountancy’s Code of Professional Conduct, based solely on the fact that the licensee or firm is providing such services. However, all licensees should be reminded that any and all services provided are subject to the same professional standards, laws and rules applicable to all other services provided by the licensee.”
