

TAKE YOUR CAREER TO THE NEXT LEVEL BY ADDING FOUR SIMPLE LETTERS:

THE DEMAND IS ALREADY HIGH. AND GROWING!

The demand for IT security consulting services is **GROWING 3.7 TIMES** more than that of general accounting through 2019.*

The demand for risk consulting services is **GROWING 45% FASTER** than that of general accounting through 2019.*

WHY ADD THE CERTIFIED INFORMATION TECHNOLOGY PROFESSIONAL (CITP) CREDENTIAL TO YOUR CPA?

63% OF CPAs believe that AICPA advisory service credentials have increased their credibility.*

WHY GET THE CITP CREDENTIAL?

Being a CPA/CITP tells your clients you:

Represent a 125-year-old established, trusted and regulated profession

Are distinguished from other information technology professionals through your training, experience, testing and education as a CPA

Have access to a community of like-minded professionals and the latest tools, resources and learning opportunities — and more — to be successful

Have had your expertise backed by the world's largest member association representing the accounting profession — the AICPA

Are competent and confident in the subject matter and are committed to continued growth and development in the area of information management and technology assurance

Have demonstrated your specialized skills, expertise and experience in the following areas: IT assurance; IT risks; data analytics; security and privacy; business solutions; and emerging trends

THE PATHWAY TO THE CREDENTIAL: CPA CITP
