Illustration 23 — An Accountant’s Review Report on Single Year Financial Statements Prepared in Accordance With Accounting Principles Generally Accepted in the United States of America Containing an Adverse Conclusion Due to a Misstatement of the Financial Statements That Is Both Material and Pervasive to the Financial Statements

Circumstances include the following:

- Review of a complete set of comparative financial statements.
- The financial statements contain a departure from accounting principles generally accepted in the United States of America that is both material and pervasive to the financial statements due to nonconsolidation of a subsidiary.

**Independent Accountant’s Review Report**

[Appropriate Addressee]

I (We) have reviewed the accompanying financial statements of XYZ Company, which comprise the balance sheet as of December 31, 20X1, and the related statements of income, changes in stockholders’ equity, and cash flows for the year then ended, and the related notes to the financial statements. **Accountant’s Responsibility**

My (Our) responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. I (We) believe that the results of my (our) procedures provide a reasonable basis for my (our) conclusion.
I am (We are) required to be independent of XYZ Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements related to our reviews.

**Basis for Adverse Conclusion**

As disclosed in Note X to these financial statements, the Company has not consolidated the financial statements of subsidiary ABC Company it acquired during 20X1 because it has not yet been able to ascertain the fair values of certain of the subsidiary’s material assets and liabilities at the acquisition date. This investment is therefore accounted for on a cost basis by the Company. Under accounting principles generally accepted in the United States of America, the subsidiary should have been consolidated because it is controlled by the Company. Had XYZ Company been consolidated, many elements in the accompanying consolidated financial statements would have been materially affected. The effects on the consolidated financial statements of the failure to consolidate have not been determined.

**Adverse Conclusion**

Based on my (our) review, due to the significance of the matter described in the Basis for Adverse Conclusion paragraph, the financial statements are not in accordance with accounting principles generally accepted in the United States of America. [Had we been engaged to perform an audit, other matters might have come to our attention.]
