

Report on the Provider's System of Quality Control and Resultant Materials

December 18, 2018

CCH Incorporated
and the National Peer Review Committee

We have reviewed the system of quality control for the development and maintenance of Knowledge-Based Examinations of Service Organizations Guide (2018) and Knowledge-Based Methodology: Examinations of Service Organizations Tools, (2018) (hereafter referred to as "materials") of CCH Incorporated (the Provider) and the resultant materials in effect at June 30, 2018. Our quality control materials review was conducted in accordance with the Standards for Performing and Reporting on Peer Reviews established by the Peer Review Board of the American Institute of Certified Public Accountants (Standards).

A summary of the nature, objectives, scope, limitations of, and the procedures performed in a Quality Control Materials Review as described in the Standards may be found at www.aicpa.org/prsummary.

Provider's Responsibility

The Provider is responsible for designing and complying with a system of quality control that provides a reasonable assurance that the materials are reliable aids to assist users in conforming with the components which are integral to the professional standards that the materials purport to encompass. The provider is also responsible for evaluating actions to promptly remediate materials not deemed as reliable aids, when appropriate, and for remediating weaknesses in its system of quality control, if any.

QCM Reviewer's Responsibility

Our responsibility is to express an opinion on the design of the system, the Provider's compliance with that system, and the reliability of the resultant materials, based on our review.

User's Responsibility

Users of the material and this report should carefully consider the scope of this review. They should also understand the intended uses and limitations of the materials as reflected in the user instructions and related information, as well as the level of explanatory guidance provided by the materials. Users of the materials are responsible for evaluating their suitability and implementing, tailoring, and augmenting the materials as appropriate. Therefore, the reliability of the materials is also dependent on the effectiveness of these actions and could vary from user to user. Further, there may be important elements of a quality control system in accordance with the Statements on Quality Control Standards that are not included in the materials that have been subject to this review.

Opinion

In our opinion, the system of quality control for the development and maintenance of the quality control materials of CCH Incorporated was suitably designed and was being complied with during the year ended June 30, 2018, to provide users of the materials with reasonable assurance that the materials are reliable practice aids. Also, in our opinion, the quality control materials previously referred to are reliable practice aids to assist users in conforming with the components which are integral to the professional standards that the materials purport to encompass at June 30, 2018. Providers can receive a rating of *pass*, *pass with deficiency(ies)*, or *fail*. CCH Incorporated has received a review rating of *pass*.

Dear Ms. Silva:

It is my pleasure to notify you that on December 18, 2018 the National Peer Review Committee accepted the report on the most recent review of the Knowledge-Based Examinations of Service Organizations Guide (2018) and Knowledge-Based Methodology: Examinations of Service Organizations Tools (2018), and the system of development and maintenance of those quality control materials.

As you know, the report had a rating of pass. The Committee asked me to convey its congratulations to the organization.

Sincerely,

Michael Fawley
Chair—National Peer Review Committee

Report on the Provider's System of Quality Control and Resultant Materials

December 18, 2018

CCH Incorporated
and the National Peer Review Committee

We have reviewed the system of quality control for the development and maintenance of Knowledge-Based Audits of Commercial Entities Guide (2018-2019) and Knowledge-Based Audit Methodology: Commercial Entities Tools (2018-2019) (hereafter referred to as "materials") of CCH Incorporated (the Provider) and the resultant materials in effect at June 30, 2018. Our quality control materials review was conducted in accordance with the Standards for Performing and Reporting on Peer Reviews established by the Peer Review Board of the American Institute of Certified Public Accountants (Standards).

A summary of the nature, objectives, scope, limitations of, and the procedures performed in a Quality Control Materials Review as described in the Standards may be found at www.aicpa.org/prsummary.

Provider's Responsibility

The Provider is responsible for designing and complying with a system of quality control that provides a reasonable assurance that the materials are reliable aids to assist users in conforming with the components which are integral to the professional standards that the materials purport to encompass. The provider is also responsible for evaluating actions to promptly remediate materials not deemed as reliable aids, when appropriate, and for remediating weaknesses in its system of quality control, if any.

QCM Reviewer's Responsibility

Our responsibility is to express an opinion on the design of the system, the Provider's compliance with that system, and the reliability of the resultant materials, based on our review.

User's Responsibility

Users of the material and this report should carefully consider the scope of this review. They should also understand the intended uses and limitations of the materials as reflected in the user instructions and related information, as well as the level of explanatory guidance provided by the materials. Users of the materials are responsible for evaluating their suitability and implementing, tailoring, and augmenting the materials as appropriate. Therefore, the reliability of the materials is also dependent on the effectiveness of these actions and could vary from user to user. Further, there may be important elements of a quality control system in accordance with the Statements on Quality Control Standards that are not included in the materials that have been subject to this review.

Opinion

In our opinion, the system of quality control for the development and maintenance of the quality control materials of CCH Incorporated was suitably designed and was being complied with during the year ended June 30, 2018, to provide users of the materials with reasonable assurance that the materials are reliable practice aids. Also, in our opinion, the quality control materials previously referred to are reliable practice aids to assist users in conforming with the components which are integral to the professional standards that the materials purport to encompass at June 30, 2018. Providers can receive a rating of *pass*, *pass with deficiency(ies)*, or *fail*. CCH Incorporated has received a review rating of *pass*.

Report on the Provider's System of Quality Control and Resultant Materials

December 18, 2018

CCH Incorporated
and the National Peer Review Committee

We have reviewed the system of quality control for the development and maintenance of Knowledge-Based Audit Methodology: Not-for-Profit Entities Tools (2018-2019) (hereafter referred to as "materials") of CCH Incorporated (the Provider) and the resultant materials in effect at June 30, 2018. Our quality control materials review was conducted in accordance with the Standards for Performing and Reporting on Peer Reviews established by the Peer Review Board of the American Institute of Certified Public Accountants (Standards).

A summary of the nature, objectives, scope, limitations of, and the procedures performed in a Quality Control Materials Review as described in the Standards may be found at www.aicpa.org/prsummary.

Provider's Responsibility

The Provider is responsible for designing and complying with a system of quality control that provides a reasonable assurance that the materials are reliable aids to assist users in conforming with the components which are integral to the professional standards that the materials purport to encompass. The provider is also responsible for evaluating actions to promptly remediate materials not deemed as reliable aids, when appropriate, and for remediating weaknesses in its system of quality control, if any.

QCM Reviewer's Responsibility

Our responsibility is to express an opinion on the design of the system, the Provider's compliance with that system, and the reliability of the resultant materials, based on our review.

User's Responsibility

Users of the material and this report should carefully consider the scope of this review. They should also understand the intended uses and limitations of the materials as reflected in the user instructions and related information, as well as the level of explanatory guidance provided by the materials. Users of the materials are responsible for evaluating their suitability and implementing, tailoring, and augmenting the materials as appropriate. Therefore, the reliability of the materials is also dependent on the effectiveness of these actions and could vary from user to user. Further, there may be important elements of a quality control system in accordance with the Statements on Quality Control Standards that are not included in the materials that have been subject to this review.

Opinion

In our opinion, the system of quality control for the development and maintenance of the quality control materials of CCH Incorporated was suitably designed and was being complied with during the year ended June 30, 2018, to provide users of the materials with reasonable assurance that the materials are reliable practice aids. Also, in our opinion, the quality control materials previously referred to are reliable practice aids to assist users in conforming with the components which are integral to the professional standards that the materials purport to encompass at June 30, 2018. Providers can receive a rating of *pass*, *pass with deficiency(ies)*, or *fail*. CCH Incorporated has received a review rating of *pass*.

Report on the Provider's System of Quality Control and Resultant Materials

December 18, 2018

CCH Incorporated
and the National Peer Review Committee

We have reviewed the system of quality control for the development and maintenance of Knowledge-Based Audit Methodology: Single Audits (Uniform Guidance) Tools (2018) (hereafter referred to as "materials") of CCH Incorporated (the Provider) and the resultant materials in effect at August 31, 2018. Our quality control materials review was conducted in accordance with the Standards for Performing and Reporting on Peer Reviews established by the Peer Review Board of the American Institute of Certified Public Accountants (Standards).

A summary of the nature, objectives, scope, limitations of, and the procedures performed in a Quality Control Materials Review as described in the Standards may be found at www.aicpa.org/prsummary.

Provider's Responsibility

The Provider is responsible for designing and complying with a system of quality control that provides a reasonable assurance that the materials are reliable aids to assist users in conforming with the components which are integral to the professional standards that the materials purport to encompass. The provider is also responsible for evaluating actions to promptly remediate materials not deemed as reliable aids, when appropriate, and for remediating weaknesses in its system of quality control, if any.

QCM Reviewer's Responsibility

Our responsibility is to express an opinion on the design of the system, the Provider's compliance with that system, and the reliability of the resultant materials, based on our review.

User's Responsibility

Users of the material and this report should carefully consider the scope of this review. They should also understand the intended uses and limitations of the materials as reflected in the user instructions and related information, as well as the level of explanatory guidance provided by the materials. Users of the materials are responsible for evaluating their suitability and implementing, tailoring, and augmenting the materials as appropriate. Therefore, the reliability of the materials is also dependent on the effectiveness of these actions and could vary from user to user. Further, there may be important elements of a quality control system in accordance with the Statements on Quality Control Standards that are not included in the materials that have been subject to this review.

Opinion

In our opinion, the system of quality control for the development and maintenance of the quality control materials of CCH Incorporated was suitably designed and was being complied with during the year ended August 31, 2018, to provide users of the materials with reasonable assurance that the materials are reliable practice aids. Also, in our opinion, the quality control materials previously referred to are reliable practice aids to assist users in conforming with the components which are integral to the professional standards that the materials purport to encompass at August 31, 2018. Providers can receive a rating of *pass*, *pass with deficiency(ies)*, or *fail*. CCH Incorporated has received a review rating of *pass*.

Report on the Provider's System of Quality Control and Resultant Materials

December 18, 2018

CCH Incorporated
and the National Peer Review Committee

We have reviewed the system of quality control for the development and maintenance of Knowledge-Based Audits of State and Local Governments with Single Audits Guide (2018-2019) (hereafter referred to as "materials") of CCH Incorporated (the Provider) and the resultant materials in effect at June 30, 2018. Our quality control materials review was conducted in accordance with the Standards for Performing and Reporting on Peer Reviews established by the Peer Review Board of the American Institute of Certified Public Accountants (Standards).

A summary of the nature, objectives, scope, limitations of, and the procedures performed in a Quality Control Materials Review as described in the Standards may be found at www.aicpa.org/prsummary.

Provider's Responsibility

The Provider is responsible for designing and complying with a system of quality control that provides a reasonable assurance that the materials are reliable aids to assist users in conforming with the components which are integral to the professional standards that the materials purport to encompass. The provider is also responsible for evaluating actions to promptly remediate materials not deemed as reliable aids, when appropriate, and for remediating weaknesses in its system of quality control, if any.

QCM Reviewer's Responsibility

Our responsibility is to express an opinion on the design of the system, the Provider's compliance with that system, and the reliability of the resultant materials, based on our review.

User's Responsibility

Users of the material and this report should carefully consider the scope of this review. They should also understand the intended uses and limitations of the materials as reflected in the user instructions and related information, as well as the level of explanatory guidance provided by the materials. Users of the materials are responsible for evaluating their suitability and implementing, tailoring, and augmenting the materials as appropriate. Therefore, the reliability of the materials is also dependent on the effectiveness of these actions and could vary from user to user. Further, there may be important elements of a quality control system in accordance with the Statements on Quality Control Standards that are not included in the materials that have been subject to this review.

Opinion

In our opinion, the system of quality control for the development and maintenance of the quality control materials of CCH Incorporated was suitably designed and was being complied with during the year ended June 30, 2018, to provide users of the materials with reasonable assurance that the materials are reliable practice aids. Also, in our opinion, the quality control materials previously referred to are reliable practice aids to assist users in conforming with the components which are integral to the professional standards that the materials purport to encompass at June 30, 2018. Providers can receive a rating of *pass*, *pass with deficiency(ies)*, or *fail*. CCH Incorporated has received a review rating of *pass*.

Dear Ms. Silva:

It is my pleasure to notify you that on December 18, 2018 the National Peer Review Committee accepted the report on the most recent review of the Knowledge-Based Audits of State and Local Governments with Single Audits Guide (2018-2019), and the system of development and maintenance of those quality control materials.

As you know, the report had a rating of pass. The Committee asked me to convey its congratulations to the organization.

Sincerely,

Michael Fawley
Chair—National Peer Review Committee

Report on the Provider's System of Quality Control and Resultant Materials

December 18, 2018

CCH Incorporated
and the National Peer Review Committee

We have reviewed the system of quality control for the development and maintenance Knowledge-Based Audit Methodology: Governmental Entities Tools (2018) (hereafter referred to as "materials") of CCH Incorporated (the Provider) and the resultant materials in effect at June 30, 2018. Our quality control materials review was conducted in accordance with the Standards for Performing and Reporting on Peer Reviews established by the Peer Review Board of the American Institute of Certified Public Accountants (Standards).

A summary of the nature, objectives, scope, limitations of, and the procedures performed in a Quality Control Materials Review as described in the Standards may be found at www.aicpa.org/prsummary.

Provider's Responsibility

The Provider is responsible for designing and complying with a system of quality control that provides a reasonable assurance that the materials are reliable aids to assist users in conforming with the components which are integral to the professional standards that the materials purport to encompass. The provider is also responsible for evaluating actions to promptly remediate materials not deemed as reliable aids, when appropriate, and for remediating weaknesses in its system of quality control, if any.

QCM Reviewer's Responsibility

Our responsibility is to express an opinion on the design of the system, the Provider's compliance with that system, and the reliability of the resultant materials, based on our review.

User's Responsibility

Users of the material and this report should carefully consider the scope of this review. They should also understand the intended uses and limitations of the materials as reflected in the user instructions and related information, as well as the level of explanatory guidance provided by the materials. Users of the materials are responsible for evaluating their suitability and implementing, tailoring, and augmenting the materials as appropriate. Therefore, the reliability of the materials is also dependent on the effectiveness of these actions and could vary from user to user. Further, there may be important elements of a quality control system in accordance with the Statements on Quality Control Standards that are not included in the materials that have been subject to this review.

Opinion

In our opinion, the system of quality control for the development and maintenance of the quality control materials of CCH Incorporated was suitably designed and was being complied with during the year ended June 30, 2018, to provide users of the materials with reasonable assurance that the materials are reliable practice aids. Also, in our opinion, the quality control materials previously referred to are reliable practice aids to assist users in conforming with the components which are integral to the professional standards that the materials purport to encompass at June 30, 2018. Providers can receive a rating of *pass*, *pass with deficiency(ies)*, or *fail*. CCH Incorporated has received a review rating of *pass*.
