Say so long to risky risk assessments

Risk assessment is at the core of every audit, however, in more than half of all audits, firms aren't properly assessing risk or linking their assessment to their audit procedures. Tell your clients, we've got resources to help. Encourage them to check out our [free risk assessment toolkit](#) featuring staff training materials, an internal inspection aid, an audit risk assessment tool, an infographic highlighting the four most common risk assessment violations and more.
